Services (Africa) Limited**

Equipment

Export-hydro Pump & Services (Africa) Ltd Operates Four (4) Hydraulic Rotary Rigs. Each Rig Has 1200cfm, 320psi Ingersoll Rand Screw Air Compressor, 26 Tonner Support Truck And Small 1 Tonner Bolero Pick-ups. Our Two (2) Rigs Utilize Pneumatic Down-the-hole (Dth) System, Commonly Known As "*drilling Hammer*". This Tool Is Operated By High-pressure Compressed Air, Injected Through Hollow Drilling Pipes By Means Of Air Compressor. While Other Two (2) Mud-direct Rotary Rig With 15 Tonner Truck As Water Tanker. We Also Have Two (2) Hydraulic Winch Test Pumping Units Coupled With Various Capacity Borehole Submersible Pumps.

Products & Services

We Specialize In Borehole Drilling, Borehole Test Pumping, Borehole Rehabilitation, Water Treatment, Supply And Installation Of Electric Submersible And Surface Pumps, Supply And Installation Of Solar Pumps, Supply And Installation Of Hand Pumps, Supply And Installation Of Tanks And Towers, Water Distribution Systems For Rural And Urban Planning, Construction Of Pump And Generator Houses, Construction Of Cattle Troughs, And Construction Of Community Water Points Be It Domestic, Industrial And Commercial.

Corporate Social Responsibility (CSR)

Corporate Social Responsibility Is About Sustainable Business Practices. We Aim To Exceed Customer Expectations By Continuously Reviewing Processes, Developing Technology And Training And Motivating Our Workforce. Our Prime Objective Is To Operate To The Highest Standard Of Safety At All Times. We Recognize That Quality Is The Key To Winning Repeat Business. We Fulfill Environmental Obligations And Make Socially Responsible Behavior A Core Value. We Share Our Knowledge, Operate With Integrity And Solve Problems Through Close Customer Collaborations. We Do All This For One Good Business Reason, We Want To Building The Customer's Choice Of Borehole Contractors And In All Sectors In Which We Operate.

Clientele

Today, Export-hydro pump & services (Africa) ltd serves a big clientele who knows that "Quality is a Journey and not a Dimension". We have successfully managed to serve our clients professionally and skillfully to their expectations by providing World's leading brands in pumps, generators, engines, solar equipment, water supply and water treatment no single client regrets having associated with us in water, sanitation and energy projects carried out in the past.

Customer Satisfaction

In Export-hydro Pumps & Services (Africa) Limited, We Know Customer Satisfaction Is Action. Being Successful In Business Relates To How Well We Understand The Wants And Needs Of Our Customers. To Satisfying Customer's Needs It Takes Research And Knowledge.

In Today's World It's Not Just About How Good You Do The Job, You Have To Do Even More. Who Do You Turn To? You Are No Doubt Saying "to The Company That Goes Out Of Their Way To Deliver, The Company That Promises Less Than You Are Willing To Do And Does More Than They Promise."

By Looking Into The Client Projects Cost, We Can Offer Services To Standards Higher Than That Provided By Other Existing Drilling Companies. This Can Be Achieved By Using The Latest Model Of Hydraulic Water Well Drilling Technology, High Quality Products And Services Backed By Experienced Technical And Management Staff That Offer Significant Quality Advantages.

Why Us?

- ◆ The quality of our work.
- ◆ How quickly we respond to our customer needs.
- ◆ High logistical backup services.
- ◆ Affordable and competitive prices.
- ◆ Commitment to high ethical business standards.
- ◆ We share our knowledge, experience and innovations with our customers and stakeholders as we seek to add value to everything we do.
- ◆ Commitment to the community we work in and encourage participation and support of community programs.
- ◆ Our workforce is the foundation of our business and we ensure everyone has the right resources to perform their work effectively.
- ◆ We are committed to training our workforce to maintain and develop their skills and to introducing new entrants to the industry.
- ◆ Finally, we are a flexible organization, keen to collaborate and to stimulate discussion and question practices in an effort to provide solutions that meet Customers' Objectives and those of their shareholders and their customers.

“We are not just building pretty layouts but understanding the business challenges and creating the solution.”
